# EVERGREENS FOR PERMANENT

## BABY EVERGREENS

The better varieties of EVERGREENS propagated from rooted cuttings as follows:

### JUNIPERS

Spreading Types: Andorra, Pfitzer, Communis, Communis Aurea, Gold Tip, Sabina, Von Ahren, Sabina or the Savins.

Dwarf Types: Myer, Stricta, Alba Variagata

Creeping Types: Horizontails blue and green, Sargents

Tall Types: Irish, Scopulorum, Virginiana

### RETINSPORAS

Chamaecyperis

Tall Types: Plumosa, Plumosa Aurea (Gold Tip), Filifera, Filifera Aurea, Pisifera, Pisifera Aurea, Squarrossa, the blue tinted variety.

### TAXUS-YEWS

Tall Types: Cuspidata Capitata, Hicksi

Spreading Types: Cuspidata

Dwarf Types: Brevifolia

Best to order tall or spreading varieties.

Tsuga: Hemlock  
Canedensis

Thuja Arbor Vitae

Tall Type: American, Pyramidalis, Gold Tipped

Dwarf Types: Globe and Gold Tipped

4/8 Inch size, 12 for \$1.00 or 25 for \$2.00.  
6/12 Inch size, 10 for \$2.50, or 25 for \$5.00  
10/15 Inch size, 10 for \$3.50, or 25 for \$7.00  
The above will be packed and mailed Free in U.S.A. Add 25¢ for B&B (Balling and Burlapping each plant).

Water thoroughly when planting. Use manure or liquid fertilizer for best results.

## SPECIAL PRICES ON LARGE QUANTITIES

Our Evergreens are easy to grow; they are hardy northern grown stock.

There are some of the Evergreens that are difficult to root and are grafted; this being a costly method of propagation.

The following list comprises varieties we carry in stock:

JUNIPERS: Tall or upright types.

Virginiana Glauca, Virginiana Kettleri, Virginiana Cannarti, Chinensis Columnaris

1 yr. 6/10 Inch size, 75¢ each; 2 yr. 8/12 Inch size, \$1.00 each.

Koster or Moreheime, the best BLUE SPRUCE:  
1 yr. 6/8 Inch size, 75¢ each; 2 yr. size, \$1.00 each.

The large size Junipers from 3 to 6 ft. sizes, 50¢ each for Balling and Burlapping, plus \$1.00 per each foot in height; as 3 ft. Evergreen, B&B, \$3.50.

As the above 2 BLUE SPRUCE are difficult to grow, prices of 2 to 6 ft. sizes, 50¢ each for balling and burlapping plus \$2.00 per foot in height or 2/3 ft. size Koster or Moreheime at \$4.50 each.

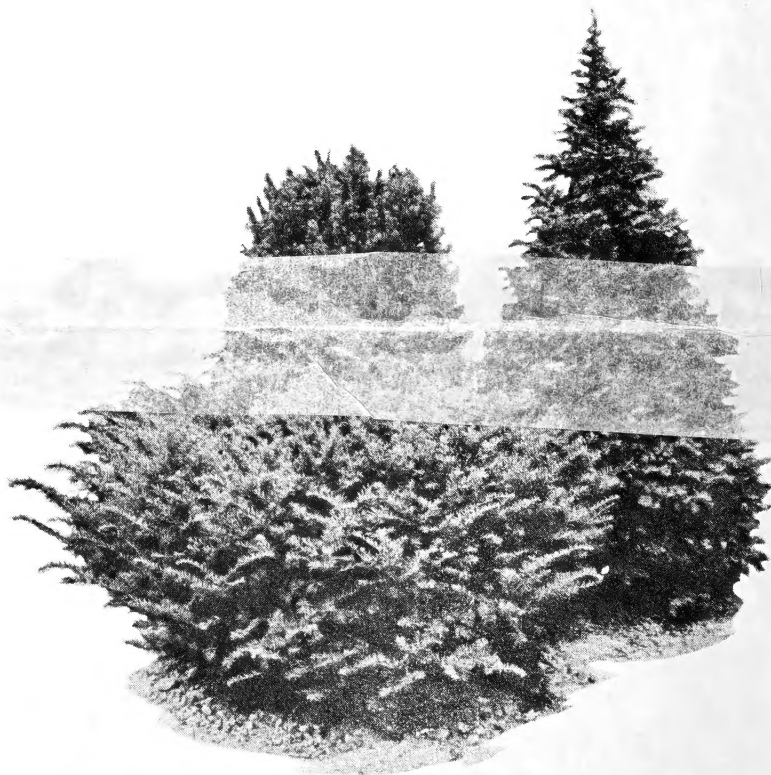

The spreading JUNIPERS heavy specimen plants charge of 50¢ for balling from 2 to 4 foot sizes plus \$1.00 per foot spread as 2 ft. perfect spreading Juniper will cost \$2.50.

The Arbor Vitae and Retinsporas a charge of 50¢ for balling and burlapping from 2 to 6 ft. sizes, plus 75¢ per foot in height as 2/3 ft. size will cost \$2.00 each.

Large sizes above 6 ft. require extra large ball of earth and should be delivered and planted as they are more difficult to handle and we will be glad to quote either price at the Nursery or delivered and planted.

Taxus or Yews are very hardy Evergreens, and we grow the spreading, the upright, and dwarf types. Prices from 2 to 6 ft. sizes, 50¢ for balling each and price of \$2.00 per foot in height or spread; thus 2 foot Taxus costs \$4.50 each.

EVERGREENS as the Firs, Pines, Spruces, Hemlocks, and Larch are grown from seed and sold as Seedlings and after they are 3 years or older, having been transplanted, are sold as Transplants. We suggest you purchase Transplants as they are ready for setting out in the field or to a permanent location. The Transplants have well developed root system and are strong individuals and fast growing Evergreens.

# WE GUARANTEE STRONG

# MENT BEAUTY ARE LASTING

Large size Pines from 2 to 6 ft., a charge of 50¢ for balling and burlapping each Tree plus a charge of 75¢ per foot in height; 2 foot tree costs \$2.75 each.

Large size Pines from 6 ft. up require an extra large ball of earth and should be delivered by truck and planted. We will be glad to quote prices upon request.

Mugho Pine: The dwarf spreading type of Pine  
4 yr. 4/8 inch size \$1.00 per 12, or 25 for \$2.00  
5 yr. 6/12 inch size, 12 for \$2.00, or 25 for \$4.00

Spruces:  
White, Red, Colorado, Norway, Tall growing types.  
4/8 inch size, 12 for \$1.00 or 25 for \$2.00.  
8/12 inch size 12 for \$2.00 or 25 for \$4.00.

Large size spruce from 18 inches to 6 ft. sizes at 50¢ for balling and burlapping plus 75¢ per foot in height as 2/3 ft. Spruce cost \$2.00 each. Colorado Blue Spruce or shiners double above prices.

4 and 5 year old transplants PINES: Scotch, Thunbergi, Red, Banks, Austrian, White Pines.

6 to 12 inch size, \$1.00 per 12 or 25 for \$2.00; 12 to 15 inch size, \$2.00 per 12 or 25 for \$4.00; 6 year old 13 to 24 inch size, 50¢ each or \$5.00 per 12.

The above sizes will be packed and mailed free U.S.A. Should you wish the above sizes balled and burlapped, add 25¢ per each plant.

EVERGREEN SHRUBS rather slow growing lot of beautiful plants add character to most any Planting as they have showy blooms, hold their leaves throughout the winter months and many carry bright colored berries after blossoms.

We propagate and grow quite a number of the EVERGREENS SHRUBS and the varieties listed are hardy in Pittsburgh district having stood the coldest winters as low as 36 degrees below Zero.

Abelia Grandiflor, Azalias, BOXWOOD, Barberry Juliana Pyracantha Coccinea (Fire-thorn), Ilex Crenata, Ilex Bullotta, Ilex Opaca, Ilex Glabra, Pierus Japonica  
4/6 inch R. C. in Spring only 12 for \$1.00  
6/8 inch 1 yr. T. \$2.00 per 12  
6/8 inch in 4 inch ready to plant, pots 35¢ each.

Large sizes add 50¢ for balling each plant plus \$1.00 per foot in height as a 2 foot Pyracantha B&B costs \$2.50, but it is worth many times this price.

Rhododendron, Kalmia, Leucothea Catesbi are also listed as Evergreen Shrubs and some of these should be included in your Plantings. 50¢ each for B&B plus \$1.00 per ft. in height. Prices will be quoted as per plants. Would advise you watch our advertisements for Specials, or if you visit the Nursery we will be glad to show our Stock of these Plants and quote prices then.

Hybrid Rhododendrons average about \$2.00 per foot in height.

Evergreen Vines for all year beauty: Euonymus, the Wintercreepers, Hardy English Ivy, and Myrtle (Vinca Minor) are all hardy will grow in shade as well as sun.  
4/8 inch size, 12 for \$1.00  
2 yr. 8/12" size, 35¢ each, 12 for \$3.50

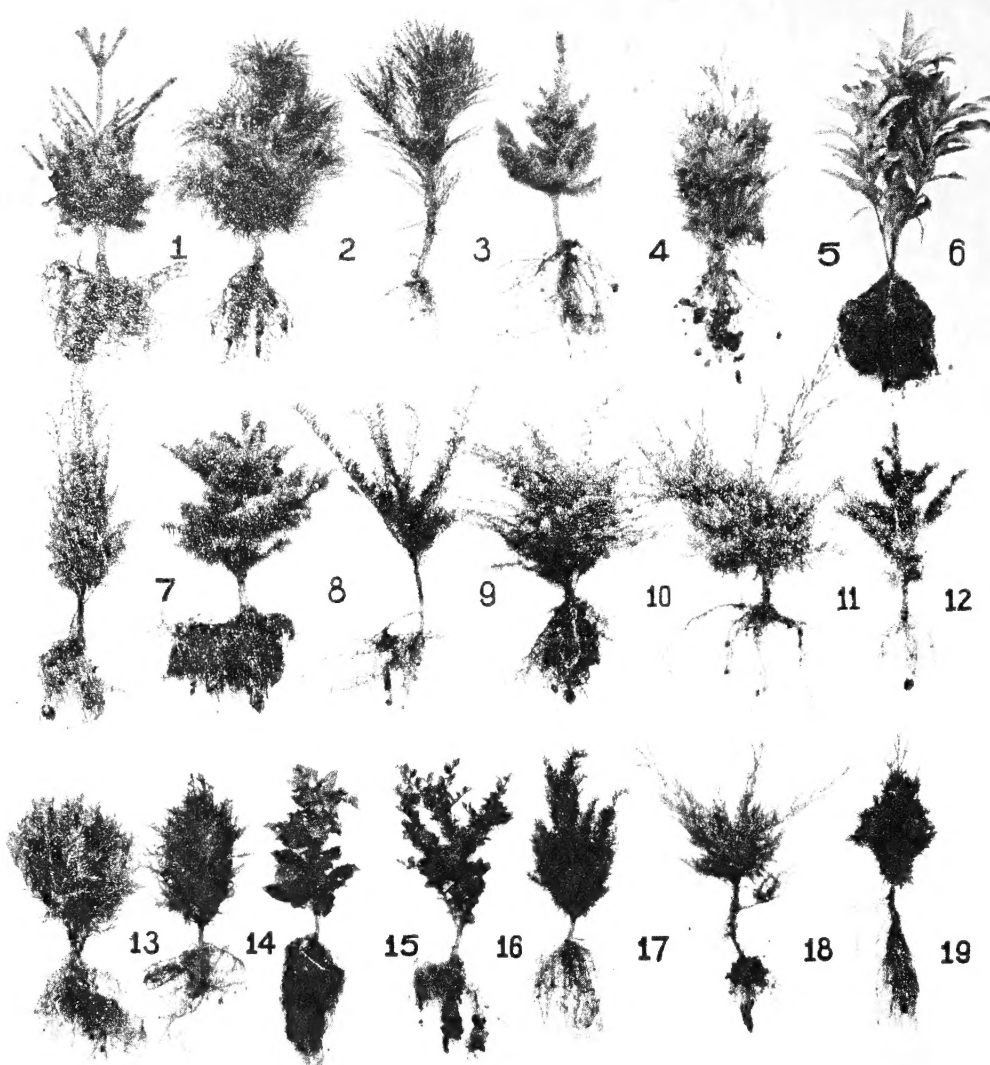

We also grow hardy Vines for Trellis, Walls; Boston Ivy clings to brick or other Masonry; the Chinese Fleece Vine a fast growing, for quick results, blooms freely, white flowers.

## *Planting Instructions and Care of Evergreens and Shrubs*

Keep the root system well moistened until ready to plant.

Be sure to dig the hole large enough so that the root system can be spread out natural; do not try to plant a large root system in a small hole, it is better to have a larger hole so that you can add some well rotted manure, woods earth or humus mixed thoroughly with the earth that you have dug out of the hole.

Never hill the earth around the plant, allow a small pocket or depression resembling a saucer; this will catch and hold any rain fall.

Never place strong fertilizer close to root system; it is best to use a smaller amount of fertilizer and dig it in around plant. Fertilizer should be applied about once each month. A good rule to follow for fertilizer is a tree or shrub that pounds one inch in caliper of the stem per year.

Water plants as you plant; after putting in enough earth to hold the plant in place fill the hole with water, this will take all the air out of your soil and fasten it firmly about the root system and follow up by watering the root system thoroughly once each week for four or five weeks, then only water plants when it is very dry. When planting balled and burlapped roots of Evergreens and Trees, dig a hole large enough to get some good earth and humus or manure around the entire ball and do not remove the burlap as it will decay, and you will keep the fibrous roots intact.

Mulching all newly planted plants will prevent drying out, heaving from frost, and keep the temperature more even; use grass clippings, hay, straw, manure, humus or peat moss as a cover. Mulch around the plant.
